STAT

Your letter of 13 October was waiting for me upon my return to Washington and I have inquired as to the availability of a job for you in this organization.

We have a place where your services can be utilized if the Marine Corps will assign you to this Agency. We do not ask for specific assignments, but signify approval when nominated by the various services. Therefore, if your nomination is received for assignment here, you can rest assured we will signify acceptability.

Sincerely yours,
